## **Approval of OLMO Polishing Materials and Car Care Products for Used-Car Preparation**

We are pleased to confirm that OLMO is the official partner of DaimlerChrysler AG for used-car preparation and that the attached OLMO products have been approved.

The partnership between OLMO and DaimlerChrysler AG was laid down in a contract.

The approved OLMO products were tested in laboratory under field conditions and can be recommended as being especially suitable for used-car preparation.

Agreements and pricing have to be settled directly between workshop and OLMO, as it is not possible for us due to competitive reasons.

We recommend all Mercedes-Benz workshops to have the materials and preparation processes explained and presented by a specialist of OLMO.

We wish you much success in the field of used-car preparation and hope that we can continue our prosperous cooperation.

Yours sincerely,

DaimlerChrysler AG  
GSP/TPS Mau
